Oct. 30, 2019

Dear Parents,

Students in Division 4, have an exciting chance to participate in a workshop to enhance their knowledge in the realm of Science and Applied Designs, Skills and Technology. The workshop will entail exploring simple robotics and simple circuits to create their own moving Brushbot Robot. Each student will get to take home their BrushBot machine creation after the workshop.

This workshop will take place at school on Thursday Nov 14, 2019 from 10:45-12:00pm. **Thanks to the generous fundraising by the Lakeview PAC, the cost of this workshop has been reduced to \$12.00 per student.** Please send the \$12.00 payment through School Cash Online or a cheque payment with the permission form. **It is expected that ALL students participate.**

Please return the permission form and indicate payment type to the school by Friday November 8, 2019.

Sincerely,

M. Chung

Robotics Workshop Thurs November 14, 2019

I give permission for my child _____ in to participate in the Robotics Workshop on Nov 14, 2019.
