Weekly News Continued

May 1st, 2020

Dear Families and Students:

A slightly different weekly news with one update and a fun community challenge.

Update: As our continuation of learning is up and running and our daily routines established, we have now been able to look at some of the other important details. I appreciate the fact that as a community you have been very supportive and have given us time to thoughtfully look at concerns beyond the classroom and one of our big focusses has been the safe return of student's personal belongings. We know the students want or need pencil cases, supplies or a favorite pair of runners left in the classroom. A special email will come out early next week outlining our plan to safely return student materials if you require them at this time.

Our Community Challenge:

Lakeview Elementary Has HEART.

Please read our challenge which we encourage our students, families and staff to participate in. Many rocks are already hidden in our community to raise spirits and connections. Look for names on these but please do not touch – remember social distancing rules and lets also keep it for everyone to enjoy.

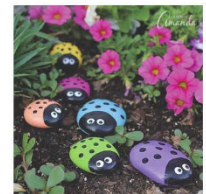

Have a great weekend

Brad Winterlik
Principal Lakeview Elementary

Challenge to our students:

Who can find the rocks I created? Give me and email at:

brad.winterlik@burnabschools.ca with a picture capturing my rock or a description of where you found one or both of them.

Lakeview Elementary Has HEART: Community Rocks

We all know that Lakeview Elementary has such a strong sense of community, so why not show that to our neighbourhood and each other! We have a project for you to do with your families!

What you will need:

- A rock (not too small, you want it big enough for people to see)
- Paint or Felts

What to do:

- Design your rock
 - It can be a picture
 - A heartfelt message
 - Something artistic
 - Make sure to include your name on the top of the rock (we do not want you putting your name on the bottom, since we do not want the rocks touched or picked up – social distancing remember!)
- Find a place in your neighbourhood to place your rock
 - Remember it needs to be somewhere where others in the community can spot it

Oh My! The Rocks I Found!!

During my walk around the neighbourhood searching for Lakeview has
HEART rocks, I found rocks by...

(Use the boxes below to write the names of the rock artists you found)
